

Alan Ari<sup>o</sup>

If  $T_0$  is 1 then the  $S_1$  is 0 and  $S_0$  is 0  
the other  $T$  will not have an effect  
due to the 3-state buffers and so on

T	$S_1$	$S_0$
$T_0$	0	0
$T_1$	0	1
$T_2$	1	0
$T_3$	1	1

if another T  
is 1
